

Medical Waiver - Release of Liability
2020/2021 School Year

Individuals with preexisting conditions such as: cardiovascular disease, respiratory disease - including asthma - and diabetes, and those who are immune-compromised, are at an increased risk of severe illness if COVID-19 (as it is commonly referred to) is contracted. I understand that my child's preexisting condition increases the implied risk of COVID-19.

An inherent risk of exposure to COVID-19 exists in any public place where people are present. By attending CHET, I voluntarily assume all risks related to exposure to COVID-19 for my family. I understand that I and my family have a choice whether to attend CHET or not.

I understand the risk associated with being at CHET and assume any liability for illness. I will not hold CHET, their faculty, staff, students, volunteers, or MCOC liable.

Do any of the following conditions apply to any of your children?

Diabetes YES _____ NO _____ If YES, which child: _____

Respiratory Disease, including Asthma YES _____ NO _____ If YES, which child: _____

Immune-Compromised YES _____ NO _____ If YES, which child: _____

Cardiovascular Disease YES _____ NO _____ If YES, which child: _____

I understand the implied risk of preexisting conditions.

I understand the risk associated with my family attending CHET and assume any liability for illness.

Printed Name of Parent/Guardian _____
